*Responsiveness Gauge. Handwriting analysis has been submitted as evidence in court cases, studied to understand heroes from the past and investigated by the police to track criminals. It's a fun and telling way to learn about people's strengths and weaknesses. Like clothing or body language, handwriting style is a presentation of ourselves on a subconscious level. By taking a close look at a short writing sample, from the dots on the I's, and crosses on the T's to the loops on the P's and humps on the N's, readers can decipher hidden talents and insecurities and delve into the depths of the subconscious self. It's surprisingly accurate and lots of fun. The book analyzes the handwriting of the most interesting and controversial people in history from Einstein and Madonna to Clinton and Starr.*

*Die Autorin zeigt, wie Körpersprache wahrgenommen wird und welche Formen der Körpersprache es gibt (Gesten, Bewegungen etc.), wie sie eingesetzt werden und was sie bedeuten. Buchstäblich von Kopf bis Fuß »übersetzt« sie dann die Körpersprache. Angefangen mit der erhobenen Augenbraue bis zum wippenden Fuß erklärt Elizabeth Kuhnke, was die Körpersprache unseres Gegenübers sagt und was unsere Körpersprache über uns verrät. Dabei erläutert sie, wie der Einsatz von Requisiten (Brille, Schlüssel, Kuli etc.) die Körpersprache noch unterstützt. Sie erfahren die Bedeutung des räumlichen Abstands (»Bannmeile« und deren Überschreitung) und erhalten Tipps für die richtige Körpersprache beim Flirten oder im Vorstellungsgespräch. Ein Kapitel ist dem Verständnis der Körpersprache anderer Kulturkreise gewidmet.*

It is a great way to learn the art without spending hours ploughing through the many books out there on the subject." - Richard Osterlind "Julian is a wonderful teacher. I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck. And I quickly became bored. With Julian's system once the info is in your head, it isn't easily leaving. And I found the whole process fun! Julian has set this up in a way that you get constant reinforcement for your efforts and just want to keep going." - Bill Cushman "I have finished Julian's book on Graphology and highly recommend it. Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short, sweet, and can be done on the back of a business card. I like to explain how I am getting my information as I am doing the reading, and

*Julian's system is perfectly suited for this. In fact, it is so simple to explain that your subject will likely go away believing they have learned something valuable even in the unlikely event that most of your reading doesn't hit the mark -- so you really cannot lose. Anyone that is interested in Graphology should definitely pick up this book." - John Lumber "As a long time graphologist, I've perused Julian's manuscript, and can attest that it is exactly as described. He's taken some of the real 'meat' of the subject and found a way to explain it clearly and simply - AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember. (And, therefore, easy to explain to others.) He's done a lot of hard mental work so that you won't have to! Well worth the price tag for those who wish to use it." - Brane OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: Palmistry - Palm Readings In Your Own Words Speed Learning: Numerology - Numbers Past And Present With The Lo-Shu Square Speed Learning: Star Signs*

## Practical Handwriting Analysis

*In this book, Handwriting Analysis - Discover Your Own Vocational/Career Potential offers a new perspective not found in conventional books on Graphology. Mr. DeWitt links handwriting analysis with professional satisfaction and instructs you in the analysis of your own handwriting. It is not uncommon for individuals to labor a lifetime in an occupation that they truly dislike or to which they are, at best, indifferent. Or they might move from job to job multiple times, desperately seeking a 'career' that is edifying. Moreover, young people just entering a sparse job market might find that they have little idea of occupations that could be personally and professionally rewarding to them. The ancient Chinese philosopher, Confucius, once stated "Find a job you love and you'll never work a day in your life" Through this book, David DeWitt seeks to affirm this timeless advice. This book will help direct you to determine your own career potential in order that you may make the best career choice fit your personality.*
